

MAKE A RAINBOW

Diane Kordas © 2003

Bend and stretch make a rainbow
(bend from side to side make an arc with hands)
Bend and stretch the colors we know
Red, green, and yellow, blue and indigo,
Bend and stretch make a rainbow.
Reach way up and touch the sky
Feel the clouds as they pass on by
Then spread your wings so you can fly
Bend and stretch make a rainbow

Chorus

Reach way down and touch the ground
Feel earthworms and woolly bears crawling around
Then jump way up and touch the sky
Bend and stretch make a rainbow.

Chorus

From toddlers to grade 2, we like beginning the class with this song! What kind of cloud will you touch? Wouldn't it be fun to touch a rainbow? Draw a rainbow, clouds, and birds to go with this song. Send me a picture!
