

SEE THE SNOW FLY

Public Domain, Author Unknown

From high in the sky, sky, sky

(hands in the air)

Down to the ground, ground, ground

(hands down)

See the snow fly, fly, fly

(hands from left to right with the beat)

With never a sound, sound, sound

(finger to mouth to be quiet)

Where children play, play, play

(jump up and down)

Play in the snow all the day

Look out the window and see it's as pretty as pretty can be.

(hands over eyes as if looking)

My Mom sang this to us when we were small, and it was always a favorite. My preschoolers and elementary students enjoy doing movements to this song. I also teach dynamics and fast and slow with this song. It's fun to try the movements in slow motion!
